

Welcome to Valley View Early Learning Center!

We are delighted to invite your family to visit us and learn about how we play to learn. At Valley View play is king! We believe in following the latest research that shows the best way for a pre-kindergarten brain to learn is through discovery, exploration and long blocks of play. We understand that our environment is also an important teacher and so we pride ourselves in providing the most beautiful, natural, home-like environment as possible. When you step inside our school you will feel a sense of calm and cleanliness. When you step into our classroom, it will feel comfortable and peaceful and when you step outside you will feel inspired to run and play in our expansive playground that has a majestic backdrop of the Santa Catalina Mountains.

All of our teachers are certified teachers with a minimum of a bachelor's degree and an Early Childhood Endorsement. All teachers have at least one assistant making our ratios a maximum of 1:9 in the classroom and no more than 1:10 outside. We are an inclusion school meaning our friends with special needs receive services within the classroom with the support of our Special Education team.

We follow the National Association for the Education of the Young Child (NAEYC) standards making us a high quality pre-kindergarten and we follow an emergent curriculum meaning we follow the interest and curiosities of the child. We also have Spanish and Chinese Immersion classrooms taught by native speakers!

Want to hear more? Schedule a personal tour at 520.209.7650.

Come play with us!

Marisol Kenman  
Principal
